

Installation:

1. Run mansionmashers_setup.exe
2. Follow the instructions in the installer to install the game.

How To Play:

Click on the New Game button in the center of the menu. Select a character and play through the tutorial level. Once you complete any level, you will be taken to the map where you can select the next level to enter by clicking on the level to move your character onto it.

Hack and slash your way through all the levels and bosses until you reach the final level which is the dog mansion. Defeat the final boss to win the game!

Controls:

Menu: Left Click to select the buttons

Map: Left Click to pick the next level, then Left Click again or use Space to enter. Escape brings up the pause menu.

In Game:

A and D - Move light and left

S - Drop down through platforms

Space - Jump

E - Pick-up or buy a weapon

Q - Cycle through obtained buffs

F - Use the selected buff

Left Click or N - Swing weapon

Right Click or M - Shoot wind attack

Escape - Brings up pause menu

Face Mouse - Selecting this option in the pause menu makes your character always look in the direction of the mouse.
